WHY KROWNE?

Through rapid expansion and innovation, Krowne is now the fastest growing company with experience ranging from custom underbar equipment and refrigeration to high quality faucets, pre-rinses, hand sinks, and more!

Krowne's dedicated team of professionals are here to provide a seamless purchasing experience from initial design to support after the sale.

Krowne firmly believes that industry-leading quality and a high-level of customer service are instrumental in forging long-term strong partnerships with customers.

Krowne's family values have always driven the team to better develop and maintain a customer-first mindset. Since the company's early days in business, the foundation has been built upon trust and partnership established from the ground up by the continued growth of the Krowne team.

MANUAL FAUCETS

BROWSE

Krowne manual faucets are built for use in a variety of commercial environments including restaurants, healthcare facilities, retail stores, commercial kitchens, restrooms, schools, hotels, and more.

Krowne product offerings range from bar and sink faucets, to service sink faucets, specialty faucets, pot fillers, and wok faucets.

All Krowne manual faucets come with quarter-turn cartridge valves for maximum performance and longevity in all applications.

ELECTRONIC FAUCETS

[BROWSE](#)

Electronic sensor faucets are designed to significantly reduce the spread of bacteria. The “hands-free” technology allows users to activate the faucet without coming into contact with anything.

With automated water activation capabilities by infrared sensor, electronic sensor faucets allow for optimal sanitation while also conserving the amount of water used.

Krowne does offer many electronic sensor faucets for both sink and bar applications. Unique differentiators include battery operated as well as module powered options.

PRE-RINSE UNITS

[BROWSE](#)

Krowne Royal Series Pre-Rinses are designed for quick and easy installation, as they ship pre-assembled. The most popular model features a 12" spout with add-on faucet and a wall bracket for convenient use.

Equipped with quarter-turn, high-performance ceramic cartridge valves and built-in integral check valves, this faucet ensures reliable operation. The unit also includes a 44" stainless steel hose with a comfortable grip, along with a riser pipe that has a hook for easy hose storage when not in use.

A complete mounting kit is provided, and full replacement parts are readily available. The spray head has a flow rate of 1.15 GPM at 60 PSI, ensuring optimal performance in the kitchen.

MODEL: 17-109WL

DIAMOND SERIES

The Diamond Series collection offers premier performance using premium components creating a durable and lasting solution supported by an industry leading lifetime warranty.

The Diamond Series Pre-Rinse product line features a spray head with an ergonomic handle for comfort, Dual Spray Technology, and a 360° smooth-swivel functionality to reduce hose tension and prolong the life of the unit. This unit can easily be retro fitted onto Royal Series pre-rinse units.

The Diamond Series Spray head is a superb accessory that guarantees extended benefits with your pre-rinse unit.

HAND SINKS

BROWSE

Krowne hand sinks feature a high-quality 4" center wall mount faucet that utilizes quarter-turn ceramic cartridge valves and includes side splashes (depending on the model) to minimize spillage and splashing on either side of the sink.

Krowne offers a wide variety of hand sink options, including wall-mounted, pedestal base, and knee or foot pedal-operated designs for a hands-free experience. For an even more sanitary solution, you can also equip Krowne hand sinks with electronic sensor faucets.

Krowne hand sinks are durable, high-quality, and user-friendly, making them an ideal choice for any kitchen setting.

WASTE DRAINS

[BROWSE](#)

The Krowne RotoPro waste drains feature a premium stainless steel ball valve design for long-lasting performance. By eliminating the traditional rubber gasket, these drains prevent leaks and endure harsh conditions. The smooth quarter-turn mechanism also minimizes maintenance requirements and costs.

These models feature a stainless steel body and ball valve, backed by a lifetime warranty. Designed for 3-1/2" sink openings, it includes a universal 2" NPS male threaded drain outlet, a 1-1/2" female threaded drain outlet, and a 1-1/4" overflow outlet with a cap.

The ball valve design offers a drain rate 2-3 times higher than conventional lever waste drains.

CASTERS

BROWSE

Krowne casters fit a wide variety of restaurant equipment from ranges and ovens to work-tables and fryers. With brakes on all four casters, your equipment is guaranteed to stay put and easily roll out for cleaning and maintenance.

With a variety of options ranging from plate casters, stem casters, wire shelving casters, and adjustable height casters - Krowne has a solution for every application.

Holding anywhere between 250-500lbs per caster, the strong and durable polypropylene grease resistant wheels ensure optimal performance in the kitchen with even some of the largest pieces of equipment.

WATER FILTRATION

[BROWSE](#)

Krowne's HydroSift water filtration systems are the leading solution for foodservice water filtration. The bacteriostatic filters reduce limescale, chlorine/chloramine, and bad taste and odor, ensuring clean, safe water.

These units enhance the efficiency of ice and beverage equipment, lower maintenance costs, and feature a sediment filter that removes dirt, sand, rust, and silt.

Krowne offer's a range of kits from single to triple filters based on GPM and flow rate, catering to all your filtration needs. All Krowne systems are NSF/ANSI approved.

THE ULTIMATE GAS CONNECTOR

Krowne's movable gas connector is a stainless steel gas hose designed to be used with caster-mounted commercial kitchen equipment. The connector can be used on a wide variety of appliances such as ovens, fryers, ranges, grills and more. Pair it with a quick disconnect to easily and safely disconnect while performing routine maintenance or cleaning. Known for their durability and longevity, Krowne's movable gas connectors include a lifetime warranty and are the ideal solution for any commercial kitchen.

1 | ROTATIONAL ENDS

360° rotational ends provide versatility and ease during installation.

2 | WELDED CONSTRUCTION

360° heavy duty welds on both ends increase durability

3 | CORRUGATED TUBING

Stainless steel corrugated tubing is built to be flexible for ease of installation.
